

ICM-1500

The Entry Level
without compromises
for card mailing.

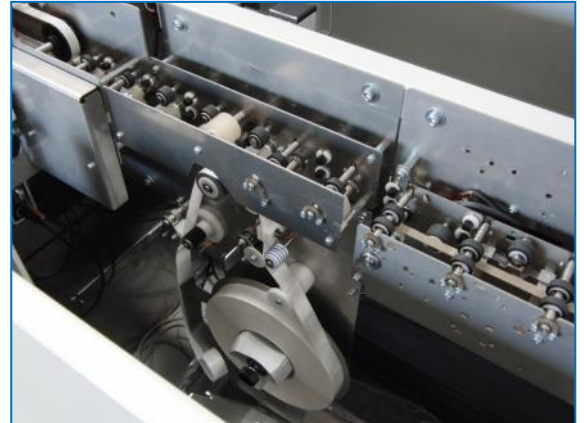

ICM-1500

We start,
where others finish ...

ICM-1500

Card Mailer and Delivery System

field-tested, robust, flexible

Proven System. The ICM-1500 system and its forerunner machines have been sold around 250 times all over the world since almost 20 years. It was one of the 1st single sheet mailers ever.

Adhesive Tape. The standard adhesive tape, which affixes the cards to the documents, gives you the guarantee that your card mailing process will run continuously without any interruption.

Card Mailer or Lettershop. The mailer is designated as a card mailer, but can be used as a classic document mailer as well. Working without cards is a default part of our machines and our software.

Process Security. Additional options, f.e. Ultra-Sonic Sensors, cameras, are able to add extra security features to the machine and the entire process.

Match and Attach. The system can be equipped with a typical laser printer or with a sheet feeder for match and attach.

Software. Our self-developed Windows Software ICSPMS offers an easy Document design based on Word for Windows and supports all common Windows OS.

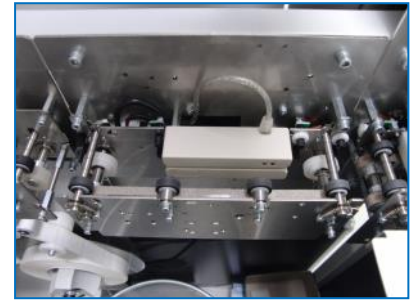

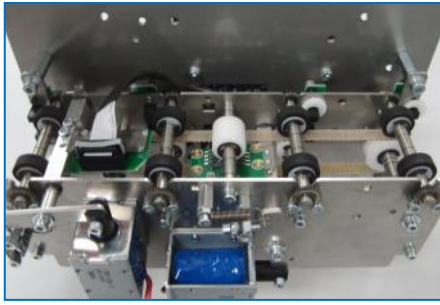

Performance. With the basic configuration you will start at 600 cards/hour and with the next step you will easily reach 1.700 cards/hour. Our modularity will support your growing demand.

Price/Performance. Due to its compact design and footprint, the ICM-1500 system has an outstanding price/performance ratio without any compromises.

Key features & facts

- ▶ **Stand-Alone & Inline Functionality**
- ▶ **Production Performance up to 1.800cph**
- ▶ **Card input with changeable magazine**
- ▶ **Magnetic stripe reading (LoCo&HiCo)**
- ▶ **Contact smart card reading**
- ▶ **Contactless smart card reading**
- ▶ **Top and bottom 1D barcode reading**
- ▶ **2D barcode and Datamatrix or MRZ reading**
- ▶ **Camera reading available**
- ▶ **6 cards per carrier possible**
- ▶ **processing of plastic & paper cards**
- ▶ **Microsoft® Word Templates**
- ▶ **Carrier Collation Module**
- ▶ **Document feeder available**
- ▶ **compact design and footprint**
- ▶ **24/7 operations**
- ▶ **transparent, clear card processing**
- ▶ **flexible card positioning**
- ▶ **No card process,**
- ▶ **New range of professional high-speed laser printers**
- ▶ **Ultra-Sonic verification module for Card/Carrier check**

Technical Specifications ICM-2000 Cardmailer & Inserter

Performance	Up to 2200 mechanical cycles/hrs— Production speed up to 1.800 cards/hrs
Card Reading	Magnetic Stripe Loco/Hico/JIS Contact Chip / Contactless Chip Barcodes 1D / 2D / Datamatrix OCR-A / OCR-B / MRZ Plain characters
Carrier Reading	1D Barcode standard / 2D Barcodes on request
Paper Format	DIN A4 / US-Letter, A5 and others on request
Paper Feed	Laser printer and/or sheet feeder
Card Affixing	Standard by double-adhesive tape,
Cards per Carrier	Up to 4 cards folded, up to 6 cards non-folded
Folding + Inserting	Z-fold + V-fold, DIN lang DL, C5/C6 and others on request
Collection Method	Up to 3 personalized documents can be added before folding
Additional Inserts	Up to 4 additional insert stations can be added Thickness up to 6 mm
Software	ICSPMS Software with integration of Word for Windows [®]
Operating System	Windows 7 [®] , Windows 8 [®] , VISTA [®] , Windows 10 [®]
Security Options	Ultra Sonic Sensors (card detection, paper detection, double paper detection, label detection) Camera Reading of Document/Card Q&A Station
Special Functions	Lettershop functionality Security Sealing of Envelopes Flip-over Station for cards Reject for Cards and Paper
Manufacturer	„Made in Germany“ by Innovative Card Systems [®]
